The Applicant further agrees to provide, upon request by the City, any additional information provided in the Annual Survey and the CF1 form, and shall provide the information within a reasonable time following any such additional request.

The benefit of the tax abatement is conditioned on the Applicant achieving substantial compliance with the Commitment in the Statement of Benefits. The City, by and through the Council, reserves the right to terminate the Economic Revitalization Area designation and associated property tax abatement deductions if it determines that the Applicant has not made reasonable efforts to substantially comply with all the Commitments, and the Applicant's failure to substantially comply with the Commitments was not due to factors beyond its control. As

used in the Agreement, "substantial compliance" shall mean the Applicant has effectuated at least eighty percent (80%) of each of the Commitments set forth in the Statement of Benefits.

As used in this Agreement, factors beyond the control of the Applicant shall only include factors not reasonably foreseeable at the time of the designation application and submission of Statement of Benefits which are not caused by any act or omission of the Applicant and which materially and adversely affect the ability of the Applicant to substantially comply with the Commitments. Factors beyond the control of the Applicant could include but would not be limited to: a substantial change in economic conditions for the Applicant which would prevent the expenditure of monies or eliminate the need for the Project at this time; or a delay in construction occasioned by third parties or circumstances beyond the control of the Applicant which prevents compliance with the time periods set out in the Statement of Benefits; or a change in ownership or plans of a parent company not controlled by the Applicant which adversely affects the needs or resources of the Applicant.

If the City terminates the Economic Revitalization Area designation and associated tax abatement deductions, it may require the Applicant to repay the City all or a portion of the tax abatement savings received through the date of such termination. The amount of tax abatement required to be repaid for each year of noncompliance shall not exceed an amount equal to the percentage by which the Applicant has failed to attain substantial compliance with the Commitments. If the Applicant fails to substantially comply with more than one of the Commitments, repayment shall be based on the highest level of noncompliance. If at any time during the term of this Agreement, whether before or after the Commitment Date, the Applicant shall: (i) cease operations at the facility for which the tax abatement was granted; or (ii) announce the cessation of operations at such facility, then the City may immediately terminate the Economic Revitalization Area designation and associated future tax abatement deductions.

**In the event the City requires repayment of the tax abatement savings as provided hereunder, it shall provide Applicant with a written statement calculating the amount due (the "Statement"), and Applicant shall make such repayment to the City within 30 days of the date of the Statement. If the Applicant does not make timely repayment, the City shall be entitled to all reasonable costs and attorneys fees incurred in the enforcement and collection of the tax abatement savings required to be repaid hereunder.**

**IN WITNESS WHEREOF**, the parties have executed this Agreement as of the date and year first above written.

Dear Terre Haute Council Members,

On behalf of Northwest Mechanical & Plumbing, I am writing to express our support of Bolder Industries, Inc. as their organization endeavors to expand operations to Indiana. Since Boulder Industries acquired the project out of foreclosure in 2014, we have been working with Bolder Industries using *union labor* on the development of their Maryville, Missouri facility. During this time, we have performed equipment and piping modifications and installation.

We have seen firsthand Bolder Industries' commitment to working with local businesses, using union labor, and positively impacting our community. Our partnership has been based on integrity, mutual respect, and a desire to create local jobs and greater opportunities for our city and state. For these reasons, we fully endorse their organization and trust Bolder Industries would bring as much benefit to Terre Haute as we've seen in northwest Missouri.

Sincerely,

RE: Colorado Waste Tire Conference

Gentlemen:

I would like to take a brief moment of your time to acknowledge your gracious hospitality last week during the Colorado Department of Public Health and Environment's Waste Tire Conference. I enjoyed having time to discuss operations at your facility, Maryville Carbon Solutions (MCS) in Maryville, Missouri. I was also quite pleased to continue our dialogue talking about the positive impacts that MCS represents in the local community and scrap tire management in the region. Thank you very much.

Also, given your familiarity with the Denver metropolitan area, thank you for knowing the "lay of the land" when taking me to dinner on Wednesday evening. I truly enjoyed it. When considered all together, the list of local choices seemed quite the formidable array. Thank you for hosting a delicious evening meal.

Lastly, we are always interested in your new ideas, technological advancements, and any new direction you wish to explore. Don't hesitate to contact me at 573-526-3949, by email at [kirk.mitchell@dnr.mo.gov](mailto:kirk.mitchell@dnr.mo.gov), or at P.O. Box 176, Jefferson City, MO 65102-0176. Thank you.

Dear Terre Haute Council Members,

On behalf of Brooner Construction & Crane, I am writing to express our support of Bolder Industries Inc. as their organization endeavors to expand operations to Indiana. Since Bolder Industries acquired the project out of foreclosure in 2014, we have been working with Bolder Industries using Union Labor on the development of their Maryville Missouri facility. During this time we have self performed as a General Contractor and using our own Millwrights, Crane Operators, Carpenters for Concrete and finish work, and managing Union Contractors for the Electrical, HVAC, and Piping work.

We have seen firsthand Bolder Industries commitment to working with local businesses, using Union Trades, and positively impacting our community

. Our partnership has been based on integrity, mutual respect, and a desire to create local jobs and greater opportunities for city and state. For these reasons we fully endorse their organization and trust Bolder Industries would bring as much benefit to Terre Haute as we've seen in Northwest Missouri. Please call if you have any questions.
