Hi fellow City Council members.

Here's a good article providing background for the idea of a Designated Outdoor Refreshment Area (DORA) here in Terre Haute. This is a project that the Chamber of Commerce's Downtown Terre Haute group and the administration have been working on this year. Eventually, there will be a proposed ordinance before the City Council for us to consider, which would establish a DORA in our downtown.

Please reach out with your questions.

See you soon,

Todd
