Paragraph Text*: I understand the mayor wants to invest money into city sidewalks, I feel that's a good idea and support that however i also feel that maintaining city sidewalks should be as important if not more important! I live in an average neighborhood and see many sidewalks in poor condition doing to lack of maintenance, I have some experience in concrete work so I have some knowledge on this subject. Personally I feel the homeowner should be responsible for this maintenance but the fact is it's not being done, this could be due to several reasons but these facts remain 1) The sidewalks are unattractive, hurting the city's image. 2) These sidewalks will fail prematurely costing the city more money in the long run. Thank you for listening to my input,
