WHEREAS, a Petition for a ten (10) year real property tax abatement has been filed with the Common Council of the City of Terre Haute, Indiana requesting that the real property described therein be designated an Economic Revitalization Area for purposes of real property tax abatement; and

WHEREAS, the petitioner has submitted a Application and Statement of Benefits and provided all information and documentation necessary for the Common Council of the City of Terre Haute, Indiana to make an informed decision, said information including a legal description of the aforesaid property as set forth in attached Exhibit A (which is hereby made a part hereof), and a site plan; and

WHEREAS, petitioner has estimated that its investment in the medical office building project (the "Project") to be located on said real estate itself will create an estimated 10 new physician and 20 new staff permanent jobs associated with the clinic practice over the next 5 years after completion of the Project, as well as retain the existing 33 physician and 160 full-time staff jobs and the associated payroll for the employees of the proposed new facility;

WHEREAS, the Common Council of the City of Terre Haute, Indiana is authorized under the provisions of I.C. 6-1.1-12.1-1 et. seq. to designate areas of Terre Haute, Indiana as economic revitalization areas for the purpose of tax abatement; and

WHEREAS, the Common Council of the City of Terre Haute, Indiana has considered the Application, Petition and Statement of Benefits and has conducted a complete and proper investigation of the subject property and neighborhood to determine that the area qualifies as an economic revitalization area under Indiana statutes; and

WHEREAS, the Common Council of the City of Terre Haute, Indiana has found the subject property to be an area within the boundaries of the City of Terre Haute, Indiana, which area has become undesirable for, or impossible of, normal development and occupancy as it has existed, as a residential neighborhood because of a lack of development, cessation of growth, and deterioration of improvements which have impaired values or prevented a normal development of property or use of property -- and such is an area declining in tax revenues;

NOW, THEREFORE, IT IS FOUND, DETERMINED AND RESOLVED by the Common Council of the City of Terre Haute, Indiana that:

1. The petitioner's estimate of the value of the Project to be built on the subject real property is reasonable for projects of that nature in order to maintain, expand, update and improve the medical services to the community and to provide a state of the art facility for the current employees and physicians to provide expanded services for the community.

2. The petitioner's estimate of the number of individuals who will be employed and retained, and the benefits thereby, can reasonably be expected to result from the Project.

3. The petitioner's estimate of the annual salaries or wages of the individuals who will be employed, and the benefits thereby, can reasonably be expected to result from the Project.

4. The totality of the benefits of the Project are sufficient to justify a ten (10) year property tax deduction from assessed valuation to result therefrom under Indiana statutes, and each and all of such deductions should be, and they are hereby, allowed.

5. The Petition for designating the subject property as an Economic Revitalization Area for the purposes of ten (10) year real property tax abatement and the Statement of Benefits (copies of which were submitted with the Petition) are hereby approved and the real estate described hereinabove is hereby designated as an Economic Revitalization Area pursuant to I.C. 6-1.1-12.1-1 et. seq.

**CITY OF TERRE HAUTE
PETITION FOR REAL PROPERTY
TAX ABATEMENT CONSIDERATION**

The undersigned owner(s) of real property located within the City of Terre Haute hereby petition the Common Council of the City of Terre Haute for real property tax abatement consideration pursuant to I.C. 6-1.1-12.1-1, et seq. and for this petition states the following:

1. The Project. Petitioner, Associated Physicians & Surgeons Clinic III, LLC ("AP&S") proposes the construction of a new medical office building on property that is currently on the southern edge of the Union Hospital campus, consisting of the two blocks located between 6th Street on the West, 6½ Street on the East, 8th Ave. on the North and 6th Ave. on the South. The building will be located on an approximately 7.75 acre tract of land to be leased from Union Hospital, Inc.
2. The estimated cost of the medical office building is Eighteen Million Dollars (\$18,000,000.00). The proposed facility will be a 4-story medical building, of approximately 104,000 square feet in size. The project anticipates contracting with UAP Contractors, LLC, a C.H. Garmong & Sons/Thompson-Thrift venture which will involve approximately 150 union laborers at common construction wages and the use of local suppliers whenever feasible through the building process.
3. The project is important to the Petitioner as a means to better serve the needs of the community and those in neighboring communities who seek health care services in Terre Haute. The construction of this facility will be a significant economic catalyst for continued development of the Terre Haute's healthcare services to west central Indiana and east central Illinois. It will reinforce Terre Haute as a regional leader in health services. As well, in addition to allowing to AP&S more fully serve the medical needs of the community, it will allow for the future growth of AP&S physician practices.
4. The facility will initially house and retain positions for 33 physicians and 160 staff members. Without new facilities keeping pace with the fast changing health services industry it can be anticipated that there would be loss of key physician and associated staff positions. The physicians' current annual payroll is \$ \$21,849,493.00. The current annual payroll for these full-time staff employees is approximately \$5,837,312.00. (part-time employee positions exist, but are excluded from these figures).

Currently, AP&S has 410 full-time, non-physician, employees earning an average wage of \$17.54 per hour. These employees also receive pension and comprehensive health insurance benefits.

In addition to assisting in retaining positions, this facility will be used to recruit new physicians and staff. It is projected that with the completion of this facility AP&S will recruit new physicians, over the next five years, to be located at this facility as follows:

- 2011 - 3 new physicians at a compensation level of \$675K;
- 2012 - 2 new physicians at a compensation level of \$675K;
- 2013 - 2 new physicians at a compensation level of \$575K;
- 2014 - 2 new physicians at a compensation level of \$475K; and
- 2015 - 1 new physician at a compensation level of \$250K.

These physicians will include surgeons, specialists and general internists. Also, it is estimated that 2 full-time staff employee positions would initially be created for each new physician added.

5. Estimate the dollar value of the redevelopment or rehabilitation project:

Subject to the adoption of a Final Economic Revitalization Area Resolution by the Council, the City of Terre Haute, Indiana (the "City") commits to providing a ten (10) year real property tax abatement for the Applicant's capital expenditure of up to \$18,000,000.00 associated with the construction of the Commitments. The capital expenditure of the Project and the filling of such positions shall occur within three (3) years of the estimated completion date of October, 2011, contained in the approved Statement of Benefits Form SB-1 (the "Commitment Date").

During the term of the abatement, the city may annually request information from the Applicant concerning the status of the Project, the approval capital expenditure for the Project, the number of full-time permanent positions created by the Project, and the average wage rates and salaries (excluding benefits & overtime) associated with the position, and the Applicant shall provide the City with adequate written evidence thereof within 15 days of such request (the "Annual Survey"). The applicant shall provide a copy of the annual CF1 to the Board of Public Works and Safety at the same time the CF1 is filed with the County. The City shall utilize this information to verify that the Applicant has complied with the commitments contained in "the Commitments" at all times after the Commitment Date and during the duration of the abatement. The Applicant further agrees to provide the City with such additional information requested by the City related to the information provided in the Annual Survey and the CF-1 form within a reasonable time following any such additional request.

The City, by and through the Council, reserves the right to terminate the Economic Revitalization Area designation and associated property tax

abatement deductions if it determines that the Applicant has not made reasonable efforts to substantially comply with all the commitments, and the Applicant's failure to substantially comply with the Commitments was not due to factors beyond its control. As used in the Agreement, "substantial compliance" shall mean the Applicant's compliance with the following: Making capital expenditures of up to \$18,000,000.00 for the Project.

As used in this Agreement, factors beyond the control of the applicant shall only include factors not reasonably foreseeable at the time of the designation application and submission of Statement of Benefits which are not caused by any act or omission of the Applicant and which materially and adversely affect the ability of the Applicant to substantially comply with this Agreement.

If the City terminates the Economic Revitalization Area designation and associated tax abatement deductions, it may require the Applicant to repay the City all or a portion of the tax abatement savings received through the date of such termination. The amount of tax abatement required to be repaid for each year of noncompliance shall not exceed an amount equal to the percentage by which the Applicant has failed to attain substantial compliance in position retention and/or creation and average hourly wage rate and salary categories multiplied by the dollar amount of taxes actually abated. If the Applicant fails to substantially comply with more than one of the aforementioned categories, repayment shall be based on the highest level of noncompliance.

If any at time during the term of this Agreement, whether before or after the Commitment Date, the Applicant shall: (i) cease operations at the facility for which the tax abatement was granted; or (ii) announce the cessation of operations at such facility, then the City may immediately terminate the Economic Revitalization Area designation and associated future tax abatement deductions.

In the event the City requires repayment of the tax abatement savings as provided hereunder, it shall provide Applicant with a written statement calculation the amount due (the "Statement"), and Applicant shall make such repayment to the City within 30 days of the date of the Statement. If the Applicant does not make timely repayment, the City shall be entitled to all reasonable costs and attorney fees incurred in the enforcement and collection of the tax abatement savings required to be repaid hereunder.

The proposed depreciable personal property improvements are estimated to be approximately \$Two Million.

C. List any public infrastructure improvements, with estimated costs, that will be necessary for the project:

It is not anticipated that any new public infrastructure improvements will be required for the project.

D. Project Start Date:

It is anticipated that the project start date will be within the month of July or August 2011, subject to execution of a ground lease with Union Hospital, Inc.

E. Project Completion Date:

It is anticipated that the project completion will be within 14 months of the starting date.

Eligibility

A. State reasons why the project site qualifies as an Economic Revitalization Area as defined under State Law, i.e., lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings or other factors that have impaired values or prevent a normal development of property or use of property. In the case of manufacturing equipment, also indicate whether or not the area contains a facility or group of facilities that are technologically, economically, or energy obsolete and if the obsolescence may lead to a decline in employment and tax revenues:

The property is located in an area within the boundaries of the City of Terre Haute, Indiana, which area has become undesirable for, or impossible of, normal development and occupancy as a residential neighborhood because of a lack of residential development and declining conditions of the housing properties, cessation of growth, and deterioration of the improvements which have impaired values or prevented a normal development of property or use of property -- and such is an area declining in tax revenues. Currently, the land is unimproved and there are no assessed improvements.

B. State the estimated number of new full-time employees (if applicable) and new employees retained (if applicable). Also include salaries and a description of employee benefits:

The facility will initially house and retain positions for 33 physicians and 160 staff members. Without new facilities keeping pace with the fast changing health services industry it can be anticipated that there would be loss of key physician and associated staff positions.

The physicians' current annual payroll is \$ 21,849,493.00. The current annual payroll for these full-time staff employees is approximately \$5,837,312.00. (part-time employee positions exist, but are excluded from these figures).

Currently, AP&S has 410 full-time, non-physician, employees earning an average wage of \$17.54 per hour. These employees also receive pension and comprehensive health insurance benefits.

In addition to assisting in retaining positions, this facility will be used to recruit new physicians and staff. It is projected that with the completion of this facility AP&S will recruit new physicians, over the next five years, to be located at this facility as follows:

- 2011 - 3 new physicians at a compensation level of \$675K;
- 2012 - 2 new physicians at a compensation level of \$675K;
- 2013 - 2 new physicians at a compensation level of \$575K;
- 2014 - 2 new physicians at a compensation level of \$475K; and
- 2015 - 1 new physician at a compensation level of \$250K.

These physicians will include surgeons, specialists and general internists. Also, it is estimated that 2 full-time staff employee positions would initially be created for each new physician added.

Description of employee benefits for new and/or retained employees:

The AP&S employees receive pension and comprehensive health insurance benefits.

C. Please attach completed State of Indiana Statement of Benefits form for real property improvements (Form SB — 1/RE) and/or State of Indiana Statement of Benefits form for personal property improvements (Form SB — J/PP) to this application material.

Ineligible Projects

Projects will not be considered if a building permit has already been obtained or construction has been initiated. This is because the decision of the Council to designate the Economic Revitalization Area must be passed on the finding that the area is “undesirable for normal development”.

The City Council has the right to void the tax abatement designation awarded to a project if the project has not been initiated within twelve (12) months of the reconfirmation date of the tax abatement resolution, or if the actual use is different than that approved.

Tax abatement for the rehabilitation or development of real property is not eligible for the following types of facilities:

1. Private or commercial golf courses.
2. Country club.
3. Massage parlor.
4. Tennis club.
5. Skating facility (including roller skating, skateboarding or ice skating).
6. Racquet sport facility (including any handball or racquetball court).
7. Hot tub facility.
8. Suntan facility.
9. Racetrack.
10. Any facility the primary purpose of which is:
 - a. retail food and beverage service;
 - b. automobile sales or service; or
 - c. other retail
11. Residential.
12. A package liquor store that holds a liquor dealers permit under IC 7.1-3-10 or any other entity that is required to operate under a license issued under IC 7.1. This subdivision does not apply to an applicant that:
 - (A) was eligible for tax abatement under this chapter before July 1, 1995;
 - (B) is described in IC 7.1-5-7-11; or
 - (C) operates a facility under:
 - (i) a beer wholesaler’s permit under IC 7.1-3-3;
 - (ii) a liquor wholesaler’s permit under IC 7.1-3-8; or
 - (iii) a wine wholesaler’s permit under IC 7.1-3-13.

Certification

I hereby certify that the representations made in this application are true and I understand that if above improvements are not commenced (defined as obtaining a building permit and actual start of construction) within 12 months of the date of the designation of the above area as an Economic Revitalization Area, the Terre Haute Common Council shall have the right to void such designation.

CITY OF TERRE HAUTE

PROPERTY TAX ABATEMENT PROGRAM OVERVIEW AND GUIDELINE SCORING SYSTEM

Program Description

Property tax abatement in Indiana is authorized under Indiana Code 6-1.1-12.1 in the form of deductions from assessed valuation. Any property owner in a locally-designated Economic Revitalization Area (ERA) who makes improvements to the real property or installs eligible new or used personal property (such as manufacturing equipment and certain research and development equipment) is eligible for property tax abatement. Land does not qualify for abatement.

Scoring System

The City of Terre Haute utilizes a scoring system as a guide for determining the appropriate length of time (one of ten time periods can be used) of the property tax abatement(s) being sought for a proposed project. Additional information on the scoring system can be found elsewhere in this document.

Indiana Real Property Assessment Standard

A property's assessed value is the basis for property taxes. Annually, local assessing officials assess the value of real property on March 1 based on market value in use of the property. Property owners can estimate the property taxes for new construction by adding the cost of the land and improvements together and multiplying by the tax rate. For real property tax abatement calculation purposes, the cost of the improvements (the land itself cannot be abated) would be utilized as the real property assessed value. This real property assessment value would then be phased-in over one of ten time periods.

Indiana Personal Property Assessment Standard

Personal property values are assessed March 1 of every year and are self reported by property owners to township assessors using prescribed state forms. Generally speaking, personal property taxes are levied against all tangible property other than real property. Numerous deductions can be applied to personal property. Of course, the value of personal property over time will be subject to depreciation, therefore, applicants are advised to seek the counsel of a financial advisor to determine which asset pool(s) (see following table) would be applicable to their particular project.

Additional information on the State of Indiana's property tax assessment system can be found at the Indiana Department of Local Government Finance website at www.in.gov/dlgef.

Project Eligibility Criteria

Decisions to designate areas as Economic Revitalization Areas are determined by the City Council. The City Council utilizes a numerical scoring system as a guide for designating areas as Economic Revitalization Areas within the corporate limits of the City of Terre Haute. Each project is scored on its individual merits. The points system that is utilized to evaluate projects considers the degree of revitalization that the project will have on the surrounding area as well as other facts such as employment (created and/or retained), investment, utilization of local construction firms and labor and so forth.

The following projects will be considered by the Terre Haute City Council for property tax abatement. The real property guideline project scoring criteria can be found in the section entitled “City of Terre Haute Real Property Tax Abatement Guideline Scoring Criteria” on page 8. For projects seeking personal property tax abatement, the “City of Terre Haute Personal Property Tax Abatement Guideline Scoring Criteria” can be found on page 10.

(A.) Manufacturing Project – Local manufacturing projects, local manufacturing-related office structures and local manufacturing-related warehouses that create or preserve employment within the city limits are eligible for property tax abatement. In the case of manufacturing facilities that directly produce product (as well as manufacturing related-warehouses), both real and depreciable personal property are eligible. In the case of manufacturing-related office structures, only real property is eligible for abatement. Also, certain research and development equipment may qualify for depreciable personal property tax abatement.

(B.) Non-Manufacturing Warehouse and Distribution Center Projects – Warehouses and distribution centers not related to a local manufacturing facility may be eligible for both real and depreciable personal property tax abatement. To be eligible for property tax abatement, the facility must substantially serve markets beyond the Terre Haute metropolitan area.

(C.) Office Space Development – Office space developments within the city limits are eligible for real property abatement provided the project substantially serves markets beyond the Terre Haute metropolitan area.

(D.) Historic Preservation – Projects within the city limits that assist in the preservation of buildings of significant historical nature will be considered for real property abatement.
