Watching Live PD on A&E and your officers were 100% in the wrong. The officer lied and tried to cover his own a** for police brutality that he incited. The trauma the small child endured trying to protect his mom will last for years. ALL of the officers involved MUST be held accountable. This is unacceptable. The young man was trying to get his dog, told the officer off, NOT A CRIME. The egotistical officer **LOST CONTROL** and then ASSAULTED on the entire family with the help of other officers...follows thru and fire them all. It is all on camera and aired live to the nation. Shame on all of you. Change your training or expect more of this complete and utter disrespect of the the law and The Constitution by your ill trained monkeys.
