This is a request to speak at an upcoming City Council Meeting regarding a proposed ad hoc committee.

I am a Licensed Clinical Social Worker and facilitate the Vigo County Crisis Intervention Team. Recently, I have observed recent momentum by various city and county entities related to the criminal justice system response to community members living with a mental health or substance use disorder. While this is needed, I also see this occurring individually without coordination nor inclusion of law enforcement input. I propose to create an ad hoc committee to address this issue.

Paragraph Text*:

The committee focus: bring together key entities related to this issue; provide analysis of the current mental health response within our city; compile data related to various sectors associated with the issue; and provide recommendations to the City Council regarding programs and funding for city programs.

Thank you.
