Subject: *Ext!* STOP THOMPSON PARK

****External Email - Think Before You Click****

- Helpdesk

To Whom This May Concern:

Thompson park located on 1751 Oak St, Terre Haute, IN 47807 does not have four way stops on all four corners of the park. When traveling North or South on South 17th street, neither of the corners of both Oak street or Thompson avenue have stop signs. A lot of vehicles travel forty plus miles an hour on South 17th street between Crawford street and Poplar street. I have witnessed a dog being fatally injured on impact by a vehicle driving reckless speeds. I strongly believe that even just one stop sign added to either intersection of Oak street or Thompson avenue would greatly reduce the possibility of anymore potential fatal accidents happening. I have children of my own and want to do whatever I can to protect them, especially when it is so close to their home and where they play. I appreciate your time in hearing me out and helping to keep our city safer!

Thank you
